# 3<sup>rd</sup> AOCMF Flap Raising Course Hands-on Practice on Human Specimens

October 12–14, 2011    Vienna, Austria

## Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

## The AO Principles of fracture management

## Welcome

Dear Colleagues,

It is our greatest pleasure to invite you to the third Flap Raising Course to be held in our state-of-the art dissecting room at the Anatomical Institute of the Medical University of Vienna from October 12 to 14, 2011!

This three-day intensive hands-on course will focus on the most commonly applied flaps for head and neck reconstructive surgery and will give you an excellent opportunity to practice, expand or consolidate your knowledge of human anatomical structures while practicing the most efficient ways to harvest flaps.

We extend a warm welcome both to surgeons-in-training who wish to gain experience in flap dissection, and to experienced surgeons who wish to fine-tune their surgical techniques!

In order to meet your needs and expectations a team of local and international experts will share their extensive know-how and in-depth knowledge with you.

We wish you a pleasant stay in Vienna and a very successful course!

We are looking forward to seeing you in October!
