

Program

4th AOCMF Interdisciplinary International Course on Skull Base Surgery „Lateral Skull Base“

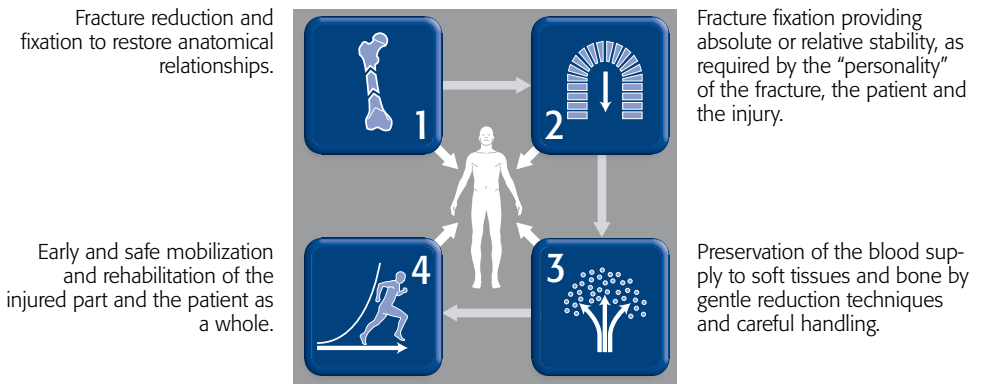

September 28–30, 2011 Vienna, Austria

Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO Principles of fracture management

Welcome

Dear Colleagues,

We are pleased to invite you to the 4th International Interdisciplinary AOCMF Course on Skull Base Surgery in Vienna. During this year's three-day intensive course, we will focus on lateral skull base surgery offering a unique learning environment combining both lecture and hands-on cadaver dissection components.

The lateral skull base is an anatomically complex region, whose enormous variety of pathological entities requires a multidisciplinary team in order to provide optimum diagnosis and therapy. Advances in diagnostic imaging, surgical techniques and instruments, and a better understanding of the skull-base anatomy combined with the advent of microvascular free tissue transfer and therapy have all been important features in the evolution of skull-base surgery.

During this course outstanding local and international speakers with a high level of competence and expertise and with an exceptional portfolio of teaching skills will provide the participants with contemporary strategies in the interdisciplinary management of lateral skull-base surgery by sharing their experience, principles and philosophy. This course will offer invaluable and up-to-date information to both experienced and beginner surgeons.

We are sure that our course will meet your expectations, enabling you to not only consolidate your knowledge of current practice but also to gain a firm grasp of the latest breakthroughs in the field.

It will also give you an excellent opportunity to visit Vienna's historical sites and enjoy a variety of cultural activities. We wish you a successful and fruitful course as well as a pleasant stay!

See you in September!

Rolf Ewers	Engelbert Knosp	Wolfgang Gstöttner
Christian Matula	Christos Perisanidis

Goal of the course

Scientific lectures will provide you with contemporary knowledge on lateral skull base surgery.

Hands-on-cadaver laboratory training will provide a unique opportunity to build skull base surgery skills.

Course description

Part A – Lectures (2 days)

Part B – Hands-on cadaver (1 day)

The training on fresh frozen cadavers will include a step-by-step introduction followed by an on-site demonstration.

Course objectives

On completion of this course the participants will

- have an improved understanding of the complex anatomical structures of the lateral skull base
- have updated knowledge on current concepts in management of lateral skull base lesions
- have enhanced their surgical skills in a variety of lateral skull base approaches

Target audience

- Maxillofacial surgeons
- Otolaryngologists
- Neurosurgeons
- Surgeons of related disciplines

Chairmen

Rolf Ewers
MD, DMD, PhD
Vienna, Austria
Course Chairman

Wolfgang Gstöttner
MD, PhD
Vienna, Austria
Course Chairman

Engelbert Knosp

Scientific Chairman

International faculty

Adunka	Oliver F.	MD	Professor of Otorhinolaryngology University of North Carolina, School of Medicine Dep. of Otolaryngology, Head and Neck Surgery
Day	John Diaz	MD	Professor of Neurosurgery University of Texas, UT Health Science Center at San Antonio, Department for Neurosurgery
Papadogeorgakis	Nikolaos	MD, DMD, PhD	Professor of Oro-Maxillo-Facial Surgery University of Athens, Evangelismos General Hospital Department of Oral and Maxillofacial Surgery

Faculty from Medical University Vienna (MUW)

Arnoldner	Christoph	MD, PhD	Dep. of Otorhinolaryngology, Head and Neck Surgery
Baumann	Arnulf	MD, DMD, PhD	Department of Cranio-Maxillofacial and Oral Surgery
Czerny	Christian	MD, PhD	Department of Radiology
Dieckmann	Ute	MD, PhD	Department of Radiation Oncology
Kitz	Klaus	MD	Department of Neurosurgery
Kornek	Gabriele	MD, PhD	Dep. of Internal Medicine I/Division of Clinical Oncology
Lang	Susanna	MD	Clinical Institute for Pathology
Matula	Christian	MD, PhD	Department of Neurosurgery
Novak	Klaus	MD	Department of Neurosurgery
Perisanidis	Christos	MD, DMD	Department of Cranio-Maxillofacial and Oral Surgery
Prettertklieber	Michael L.	MD	Department of Anatomy
Schopper	Christian	MD, DMD, PhD	Department of Cranio-Maxillofacial and Oral Surgery
Undt	Gerhard	MD, DMD, PhD	Department of Cranio-Maxillofacial and Oral Surgery

DAY 1 Wednesday, September 28, 2011**PART A**
Lectures

TIME	AGENDA ITEM	WHO
08:30–09:00	Registration	
09:00–09:10	Welcome	Ewers, Gstöttner, Knosp, Matula
09:10–09:30	History and structure of the AO	Ewers
	Keynote lecture I - Interdisciplinary management I	
09:30–10:00	Radiological approach and imaging pathologies of the lateral skull base	Czerny
10:00–10:30	Pathologies of the lateral skull base and adjacent structures	Lang
10:30–11:00	COFFEE BREAK	
	Keynote lecture II - Trauma to the lateral skull base	
11:00–12:30	CMF aspect	Baumann
	ENT aspect	Arnoldner
	NCH aspect	Matula
12:30–13:00	Round table discussion	
13:00–14:00	LUNCH BREAK	
	Keynote lecture III - Tumor of the lateral skull base	
14:00–15:30	CMF aspect	Schopper
	ENT aspect	Gstöttner
	NCH aspect	Knosp
15:30–16:00	Round table discussion	
16:00–16:30	COFFEE BREAK	
16:30–18:00	Dural repair in complex neurosurgery & practical hands-on	Day, Matula
18:00	End of day 1	

DAY 2 Thursday, September 29, 2011

PART A Lectures

TIME	AGENDA ITEM	WHO
09:00–10:30	Keynote lecture IV - Approaches to the lateral skull base	
	CMF aspect	Papadogeorgakis
	ENT aspect	Adunka
	NCH aspect	Day
10:30–11:00	Round table discussion	
11:00–11:30	COFFEE BREAK	
11:30–12:30	Short presentations	
	TMJ and lateral skull base	Undt
	Parapharyngeal space	Perisanidis
	Intraoperative monitoring	Novak
12:30–13:00	Round table discussion	
13:00–14:00	LUNCH BREAK	
14:00–15:30	Keynote Lecture V - Interdisciplinary management II	
	Radiosurgery	Kitz
	Oncology	Kornek
	Radiation therapy	Dieckmann
15:30–16:00	Round table discussion	
16:00	End of day 2	
19.00	COURSE DINNER AT A TYPICAL VIENNESE WINE TAVERN	

DAY 3 Friday, September 30, 2011**PART B**
Hands-on cadaver

TIME	AGENDA ITEM	WHO
08:30–09:20	Anatomy basic to surgical approaches to the lateral skull base	Pretterklieber
09:20–11:00	Hands-on cadaver - Neurosurgery	
	Temporal/subtemporal/zygomaticotemporal approaches	Day, Matula, Knosp
11:00–11:30	COFFEE BREAK	
11:30–13:00	Hands-on cadaver - ENT	
	Infratemporal/transpetrosal approaches	Adunka, Arnoldner, Gstöttner
13:00–14:00	LUNCH BREAK	
14:00–15:30	Hands-on cadaver - CMF	
	Surgical anatomy and dissection of the facial nerve	Papadogeorgakis, Perisanidis, Ewers
15:30–15:45	COFFEE BREAK	
15:45–17:15	Hands-on cadaver	
	Approach to the TMJ	Undt
17:15–17:30	Closing statements Issuance of certificates	Ewers, Gstöttner, Knosp
17:30	End of the course

Bank charges must be paid by the participant. Please state your name on every remittance slip. After receipt of payment you will receive a confirmation of your registration.

Payment of registration fee by credit card will not be accepted!

Cancellation

No refund for cancellations within 10 days before event.

Course information

Accreditation

The 4th International Interdisciplinary AOCMF Course on Skull Base Surgery “Approaches to the Lateral Skull Base” will get accreditation from the European Accreditation Council for Continuing Medical Education (EACCME) to provide CME activity for medical specialists.

The EACCME is an institution of the European Union of Medical Specialists (UEMS)

www.uems.net

Evaluation guidelines

All AOCMF courses apply the same evaluation process, either ARS (audience response system) or paper and pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs.

Intellectual property

Course materials, presentations, and case studies are the intellectual property of the course faculty. All rights are reserved.

Recording, photographing or copying of lectures, practical exercises, case discussions, or any course materials is absolutely forbidden.

Security

Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No insurance

Course organization does not provide insurances to cover participants against accidents or other risks.

Personal belongings deposited in the dissection room are at the responsibility of their owners.

Mobile phone use

Mobile phone use is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.
