

INTERNATIONAL WINTER SCHOOL

INTERDISCIPLINARY AND INTERNATIONAL ELECTIVE – A FOUR WEEKS ROTATION IN ONCOLOGY

March 2 - 31, 2012

INVITATION

We are pleased to invite you to our Winter School “Interdisciplinary and International Elective – A Four Weeks Rotation in Oncology” from 2nd to 31st March 2012 at the Ludwig Maximilian University of Munich.

The program will consist of a series of lectures, tutorials, seminars, bedside teachings, communication training and lab visits. Issues for consideration will include:

- › theoretical oncology
 - › methods of diagnosis and treatment
 - › supportive measures in oncology
- and their implications for research and extension.

The international students will choose a field of interest for patient contact and rounds with one small group seminar per week and will integrate into our medical team during the whole Winter School.

On Mondays and Wednesdays, specific tutorials will instruct the international students how to solve clinical cases in a problem-oriented and cooperative manner with particular focus on the topic "How to break bad news" in the medical context.

The Thursday evening session will involve communication training, simulations based on standardized patients and collegiate research, Fridays will be reserved for seminars and practical training.

The Winter School features an entertaining social and cultural program. We invite you to enjoy a guided sightseeing tour in Munich, a visit to Neuschwanstein Castle and a skiing trip to Garmisch-Partenkirchen, Germany's no.1 location for winter sports at the foot of the Zugspitze – Germany's highest mountain. An excursion to the rehab hospital in Bad Trissl completes the functional part of the Winter School.

APPLICATION DOCUMENTS:

- › CV (short)
- › Proof of “Internal Medicine Core”
- › Proof of English language skills (non-native speakers)

Travel grants might be available.

Registration deadline is December 15, 2011.
