Dear Professor Wolfgang Schütz,

On July 16-25, 2011 the **International students' summer school** will take place at Ternopil State Medical University for the sixth time. Previously, students of Your university participated in our project. So, I have an honor to invite the team (3 students) from Vienna to take part in the **International students' summer school** again.

Participants have to pay for the trip to Ukraine and back to the home country. Our university will cover all expenses connected with the transfer from the place of arrival to Ukraine to our university and backwards as well as housing and feeding of the participants.

The application deadline – March 31st, 2011. You are welcome to contact the following address with requests on registering: irof_tsmu@i.ua – Dr. Nataliya Lisnichuk, PhD, the head of International relations department. You can find more detailed information about our project on our web-site www.teriss.te.ua.

With the best regards,

Prof. Leonid Kovalchuk, MD, PhD
Rector
Ternopil State Medical University
