BioNanoMed 2014
26 - 28 March, Krems/Austria

TOPICS

Nanotechnology Enables Personalized Medicine
New Frontiers in Medicine & Biology

A - Novel Nanomedical Solutions - Advances in Nanomedicine

- Neurodegenerative Diseases, Cardiovascular Disease, Ophthalmology, Diabetes, Nephrology, Inflammation, Infection & Immunology, Dentistry, Nano-Microbiology, Novel Methods in Nanomedicine

B - Nanomaterials for Biomedical Applications

C - Nano-Oncology: Diagnostic, Drug Delivery and Therapy

- Nanotechnology in Cellular & Biomolecular Recognition, Nano Arrays, Magnetic Nanoparticles & Devices, Novel Drug Delivery Systems, Theranostic Nanotechnologies, siRNA Therapeutics and Nanovectors, Biomarkers & Targeting, Photodynamic Therapy in Cancer Disease

D - NanoPharmaceuticals & Production Technologies

- Nanotechnology in Drug Discovery & Development, Delivery of Pharmaceuticals, Liposomal NanoPharmaceuticals, Nanocrystals, Micellar Nanoparticles, Dendrimeric NanoPharmaceuticals, Polymeric NanoPharmaceuticals, Nanoparticles: prospects and perils

Thematic Sessions

I - Nano-Bio-Sensing: New Sensing Approaches, Visions and Perspectives in Diagnosis & Therapy

II - Nano-Imaging-Technologies in Medicine

- Perspectives of Nano-Imaging, Imaging Technologies (Nanoscale Imaging, In-Vivo Nano-Imaging, Nano-MRI, Molecular Imaging, Quantum Dot Imaging)

Special Session & Panel Discussion

- NanoSafety: Innovation-Enabler for Nanomedicine

- Aspects of NanoSafety, Regulations and Nanotoxicology for Nanomedicine, Economic relevance of NanoSafety, Cooperation in the field of NanoSafety, Regulatory testing, Dialogue, Outreach and Education, Strategies towards safety implementation of nanomedical products

Special Symposium

- Nanotechnology in Artificial Organ Support

(organized by ESAO - European Society for Artificial Organs)

We are looking forward to your contribution for BioNanoMed 2014!
Call for Papers

Invited talks given by leading international scientists as well as contributed talks and poster presentations will offer delegates a good opportunity to discuss pioneering developments and to initiate cooperation projects.

You are cordially invited to submit an abstract for a contribution (oral or poster presentation) to the BioNanoMed 2014 International Congress.

The 2014 Program Committee seeks a diverse and comprehensive technical program covering pioneering developments for early recognition and treatment of diseases.

Authors wishing to contribute to BioNanoMed 2014 must submit an abstract (using the template on BioNanoMed Website) electronically to office@bionanomed.at.

Target Audience

The conference addresses clinical physicians as well as nanoscientists with a background of pharmacology, biology, physics, chemistry and engineering involved in the development and clinical application of nanomedicine.

The conference is also of interest for policymakers, experts from industry in the field of life sciences as well as all those investigating the potential of future emerging technologies.

Important Deadlines

Deadline for oral abstracts: 17 December 2013
Deadline for poster abstracts: 9 March 2014
End of early registration: 31 January 2014
End of online registration: 22 March 2014

Abstracts for all sessions are now welcome!
Information

Congress Language
English

Erwin Schrödinger Society Poster Awards
Erwin Schrödinger Society Awards 2014 are granted to the best three poster contributions (€ 300,- for the first, € 200,- for the second and € 100,- for the third place). Awarded by Erwin Schrödinger Society for Nanosciences.

Nanotoxicology Poster Award
The best poster in the field of Nanotoxicology will be awarded by BioNanoNet Forschungs GmbH with € 250,- and published in the EURO-NanoTox-Letters.

Participation for Students
The student fee applies to predoctoral full-time students only (please send a letter with signature and stamp from the University to office@bionanomed.at).

Exhibition & Sponsoring
BioNanoMed 2014 serves as an excellent platform to present your company/institution, to promote your product portfolio and to establish direct links to a broad audience of experts. By becoming an exhibitor or sponsor you will make a great contribution to support the BioNanoMed 2014 congress. Detailed information: www.bionanomed.at.

Congress Fees
Academic Delegate - Early registration: € 395,- (valid until 31 January 2014)
Academic Delegate: € 445,- (On-Site € 490,-)
Industry Delegate - Early registration: € 450,- (valid until 31 January 2014)
Industry Delegate: € 495,- (On-Site € 540,-)
Students - Early registration: € 280,- (valid until 31 January 2014)
Students late registration: € 325,- (On-Site € 370,-)
Congress Dinner participation: € 30,- (On-Site € 35,-)

All prices exclude VAT of 20%.

The congress fee includes admission to scientific programme, poster sessions and exhibition, congress documentation and refreshments during the coffee breaks.
BioNanoMed 2014
26 - 28 March, Krems /Austria

Venue
International Meeting Centre
IMC Fachhochschule Krems Am Campus Krems, Wing G1 3500 Krems/Austria
