Program

3rd AOCMF Operative Techniques in Oral and Maxillofacial Surgery Course Practicals on Human Specimens

April 25–27, 2012     Vienna, Austria
Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO Principles of fracture management

1. Fracture reduction and fixation to restore anatomical relationships.

2. Fracture fixation providing absolute or relative stability, as required by the "personality" of the fracture, the patient and the injury.

3. Preservation of the blood supply to soft tissues and bone by gentle reduction techniques and careful handling.

4. Early and safe mobilization and rehabilitation of the injured part and the patient as a whole.
Welcome

Dear Colleagues,

We are pleased to invite you to the 3rd AOCMF “Operative Techniques in Oral and Maxillofacial Surgery Course”.

It will take place in April 2012 in an excellently equipped laboratory at the Anatomical Institute at the Medical University of Vienna. This is the third time this course has been offered and it will have the same emphasis as in previous years on learning all necessary operative procedures in oral and maxillofacial surgery “step by step” on fresh frozen specimens.

Beginners as well as advanced practitioners are welcome to practice, enhance or improve their skills or refresh their knowledge under the guidance of outstanding local and international experts.

Take this unique opportunity of visiting Vienna too and experience the wide variety of cultural activities it has to offer.

We hope to see you in April.

Michael Ehrenfeld
Chairman AOCMF
International

Rolf Ewers
Course Chairman

Christos Perisanidis
Course Chairman
Goal of the course
This course with practicals on human specimens is designed to present and teach all essential operative procedures in oral and maxillofacial surgery.

We also offer you the chance to practice under expert guidance.

Course objectives
On completion of this course the participant will:

- know how to perform the most relevant surgical approaches safely
- be able to carry out the most essential operative procedures step by step
- develop and/or enhance their surgical skills in a variety of operative techniques in oral and maxillofacial surgery
- gain an improved understanding of complex anatomical structures

Course description
Course Concept: Practicals on human specimens, Lectures

This three-day intensive course trains on fresh frozen human specimens.

Each practical session will include a step by step introduction followed by an on-site demonstration.

Participants will then perform the same technique on human specimens.

2 participants per human specimens.

Target audience
- Maxillofacial Surgeons
- Plastic and reconstructive surgeons
- Otolaryngologists
- Surgeons of related disciplines
Chairmen

**Ewers Rolf, MD, DMD, PhD**  
Medical University of Vienna (MUW)  
Dep. of Cranio-Maxillofacial & Oral Surgery  
Vienna, Austria

**Perisanidis Christos, MD, DMD**  
Medical University of Vienna (MUW)  
Dep. of Cranio-Maxillofacial & Oral Surgery  
Vienna, Austria

International faculty

Acero Julio MD, DMD, PhD  
Complutense University, Gregorio Marañon Hospital  
Department of Oral and Maxillofacial Surgery

Lauer Günter MD, DMD, PhD  
University Hospital Carl Gustav Carus Dresden  
Department for Oral and Maxillofacial Surgery

Papadogeorgakis Nikolaos MD, DMD, PhD  
University of Athens, Evangelismos General Hospital  
Department for Oral and Maxillofacial Surgery

Local faculty

Baumann Arnulf MD, DMD  
Medical University of Vienna (MUW)  
Department for Cranio-Maxillofacial and Oral Surgery

Matula Christian MD, PhD  
Medical University of Vienna (MUW)  
Department for Neurosurgery

Perisanidis Christos MD, DMD  
Medical University of Vienna (MUW)  
Department for Cranio-Maxillofacial and Oral Surgery

Pöschl Wolfgang P. MD, DMD  
Medical University of Vienna (MUW)  
Department for Cranio-Maxillofacial and Oral Surgery

Schopper Christian MD, DMD  
Medical University of Vienna (MUW)  
Department for Cranio-Maxillofacial and Oral Surgery

Wutzl Arno MD, DMD  
Medical University of Vienna (MUW)  
Department for Cranio-Maxillofacial and Oral Surgery
# DAY 1  
**Wednesday, April 25, 2012**

## SESSION I: Airway Management
- 09:00–10:30  Tracheostomy  
  | Julio Acero          |
- 10:30–11:00  COFFEE BREAK  

## SESSION II: Neck Dissections
- 11:00–13:30  Supraomohyoid neck dissection  
  | Christian Schopper  |
- 13:30–14:30  LUNCH  
- 14:30–16:00  Modified radical neck dissection  
  | Christian Schopper  |
- 16:00–16:15  COFFEE BREAK  

## SESSION III: Mandibulotomy
- 16:15–17:30  Mandibulotomy / Mandibular swing  
  | Julio Acero          |
- 17:30  End of day 1

Evaluation guidelines
All AOCMF courses apply the same evaluation process, either ARS (audience response system) or paper and pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs.

Security
Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No insurance
Course organization does not provide insurances to cover participants against accidents or other risks. Personal belongings deposited in the dissection room are at the responsibility of their owners.

Mobile phone use
Mobile phone use is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.
