

## Learning objectives – mandatory

The fulfilled and assessed learning objectives must be marked **by the student** with an x.

The **assessment** can be performed by the mentor in three ways: **direct observation** of the student during performance of a clinical activity (see page ii), **CPY task** (see page P4-P6), **Mini-CEX/DOPS** (see page v-vi). At the end of completion of the CPY tertial in the respective department, fulfilment of the learning objectives must be signed off by the mentor.

Competence	Objectives completed
<b>Taking a medical history</b>	
1. Taking a systematic history (symptoms, current complaints, the patient's life situation, his/her understanding of the illness and concerns, social and cultural background and illness experience)	<input type="radio"/>
2. Identifying hazardous behaviour and dangerous lifestyles	<input type="radio"/>
<b>Performance of examination techniques</b>	
3. Assessment of vital functions (body temperature, respiration, pulse rate, blood pressure, venous pressure)	<input type="radio"/>
4. Determining and assessing the suitability of blood/stem cell donors	<input type="radio"/>
5. Assessing peripheral venous status	<input type="radio"/>
6. Stopping haemorrhage (direct pressure on wound, pressure points on large blood vessels, pressure bandage)	<input type="radio"/>
<b>Performance of routine skills</b>	
7. Using appropriate hand hygiene at the workplace	<input type="radio"/>
8. Peripheral intravenous cannulation	<input type="radio"/>
9. Venepuncture/drawing blood	<input type="radio"/>
10. Intravenous injection	<input type="radio"/>
11. Handling a central venous catheter	<input type="radio"/>
12. Performing and assessing a bedside test	<input type="radio"/>
13. Performing and assessing pre-transfusion laboratory tests (ABO/RhD typing, antibody screening and specification, serological compatibility testing)	<input type="radio"/>
14. Performing and assessing other blood group serology tests (direct anti-globulin test, titration)	<input type="radio"/>
<b>Therapeutic measures</b>	
15. Working with local / national and international guidelines and protocols	<input type="radio"/>
16. Compliance with legal requirements (Austrian Physicians' Act, Hospitals Act, Blood Donor Regulation, Blood Safety Act)	<input type="radio"/>
17. Involvement in the prescription of therapeutic apheresis	<input type="radio"/>

**Competence**

Objectives completed

18. Involvement in the collection of haematopoietic stem cells

19. Involvement in the collection of blood products

**Communication with patient/team**

20. Communicating with severely ill patients

21. Giving main information elements necessary to get informed consent from patients and blood donors

**Documentation**

22. Writing letters for transfer or discharge of patient

23. Specific documentation of clinical procedures (e.g. bedside test)

**Verified by mentor**

## Learning objectives – optional

In addition to the competences that are mandatory to achieve, optional competences from the training programmes may also be acquired.
