

Learning objectives – mandatory

The fulfilled and assessed learning objectives must be marked by the student with an x.

The assessment can be performed by the mentor in three ways: direct observation of the student during performance of a clinical activity (see page ii), CPY task (see page P4-P6), Mini-CEX/DOPS (see page v-vi). At the end of completion of the CPY tertial in the respective department, fulfilment of the learning objectives must be signed off by the mentor.

Competence	Objectives completed
Taking a medical history	
1. Taking oncological history	<input type="radio"/>
2. Identifying risk factors and dangerous lifestyle including smoking history	<input type="radio"/>
Performance of examination techniques	
3. Assessing and determining performance status	<input type="radio"/>
4. Assessing acute symptoms	<input type="radio"/>
5. Conducting diagnostic planning	<input type="radio"/>
6. Conducting lymph node examination	<input type="radio"/>
7. Preparing and conducting rectal examination	<input type="radio"/>
8. Examining reproductive organs	<input type="radio"/>
9. Interpreting findings	<input type="radio"/>
10. Recognising therapy side effects and initiating diagnostics	<input type="radio"/>
11. Recognising oncological emergencies	<input type="radio"/>
Performance of routine skills	
12. Administering intramuscular and subcutaneous injections	<input type="radio"/>
13. Performing intravenous injections	<input type="radio"/>
14. Removing drains	<input type="radio"/>
15. Removing central venous catheter	<input type="radio"/>
16. Obtaining consent for medical procedures	<input type="radio"/>
17. Assisting with biopsies	<input type="radio"/>
18. Assisting with joint punctures	<input type="radio"/>
19. Inserting nasogastric tube	<input type="radio"/>
20. Conducting surgical preparation	<input type="radio"/>

Competence

Objectives completed

Therapeutic measures

21. Applying principles of evidence-based medicine	<input type="radio"/>
22. Applying therapy guidelines	<input type="radio"/>
23. Applying oncological pharmacotherapy	<input type="radio"/>
24. Understanding systemic therapies	<input type="radio"/>
25. Applying supportive therapy concepts	<input type="radio"/>
26. Understanding fundamentals of radiotherapy	<input type="radio"/>
27. Interpreting radiotherapy planning	<input type="radio"/>
28. Applying radio-oncological supportive therapy	<input type="radio"/>
29. Conducting anticoagulation	<input type="radio"/>
30. Obtaining surgical consent forms	<input type="radio"/>
31. Conducting preoperative assessment	<input type="radio"/>
32. Applying pain therapy and palliative care	<input type="radio"/>
33. Assessing therapy suitability	<input type="radio"/>

Communication with patient/team

34. Conducting interdisciplinary communication	<input type="radio"/>
35. Conducting patient education	<input type="radio"/>
36. Conducting telephone communication	<input type="radio"/>
37. Breaking bad news	<input type="radio"/>
38. Conducting lifestyle counselling	<input type="radio"/>
39. Conducting cancer prevention counselling	<input type="radio"/>

Competence

Objectives completed

Documentation

- | | |
|--|-----------------------|
| 40. Accessing patient-specific information in hospital information systems (AKIM, RDA) | <input type="radio"/> |
| 41. Documenting findings in patient records | <input type="radio"/> |
| 42. Coding diagnoses | <input type="radio"/> |
| 43. Creating discharge letters and referral letters | <input type="radio"/> |
| 44. Completing death certificate or requesting autopsy (simulated situation) | <input type="radio"/> |
| 45. Presentation and discussion of patient case in tumour board | <input type="radio"/> |
| 46. Creating diagnostic plan to confirm suspected diagnosis in neoplastic diseases | <input type="radio"/> |

Verified by mentor

Learning objectives – optional

In addition to the competences that are mandatory to achieve, optional competences from the training programmes may also be acquired.
