

Learning objectives – mandatory

The fulfilled and assessed learning objectives must be marked by the student with an x.

The assessment can be performed by the mentor in three ways: direct observation of the student during performance of a clinical activity (see page ii), CPY task (see page P4-P6), Mini-CEX/DOPS (see page v-vi). At the end of completion of the CPY tertial in the respective department, fulfilment of the learning objectives must be signed off by the mentor.

Competence	Objectives completed
Taking a medical history	
1. Taking a targeted, hypothesis-directed history	<input type="radio"/>
2. Identification of possible risk factors for surgery / anaesthetic	<input type="radio"/>
Performance of examination techniques	
3. Assessment of skin and mucous membranes (signs of anemia, cyanosis, jaundice, edema, dehydration)	<input type="radio"/>
4. Assessment of vital functions (body temperature, respiration, pulse rate, blood pressure, venous pressure)	<input type="radio"/>
5. Symptom-oriented examination and the ordering of further diagnostics in the case of an acute patient	<input type="radio"/>
6. Inspection of abdomen including eliciting abdominal tenderness, rebound tenderness and guarding	<input type="radio"/>
7. Rectal examination in male	<input type="radio"/>
8. Inspection and palpation of penis and scrotum (testes, epididymis, spermatic cord) including transillumination of scrotum	<input type="radio"/>
9. Inspection and palpation of female external genitalia (vulva, perineum)	<input type="radio"/>
10. Assessment and discussion of radiological findings in a clinical context	<input type="radio"/>
11. Assessment of perioperative fluid balance and loss of electrolytes	<input type="radio"/>
12. Evaluation of the perioperative nutrition situation and gastrointestinal function	<input type="radio"/>
13. Attaching a pulse oximeter and interpreting the results	<input type="radio"/>
14. Identifying superficial wound healing problems	<input type="radio"/>
15. Identifying deep wound healing problems	<input type="radio"/>
16. Identification of post-operative bleeding/complications	<input type="radio"/>
17. Participation in the diagnosis of suspected deep vein thrombosis / pulmonary embolism	<input type="radio"/>
Performance of routine skills	
18. Intravenous injection	<input type="radio"/>
19. Urinary catheterization	<input type="radio"/>
20. Handling a central venous catheter	<input type="radio"/>

Competence

Objectives completed

21. Pre-operative preparation of operative field for minor surgery, asepsis and antisepsis	<input type="radio"/>
22. Patient instruction for mid-stream urine sample collection	<input type="radio"/>
23. Performing and reading of urine stick test	<input type="radio"/>
24. Taking an electrocardiogram at rest	<input type="radio"/>
25. Using appropriate hand hygiene at the workplace	<input type="radio"/>
26. Wound cleaning	<input type="radio"/>
27. Removal of wound sutures	<input type="radio"/>
28. Application of a bandage	<input type="radio"/>
29. Application of local (infiltration) anaesthesia / Oberst conduction anaesthesia	<input type="radio"/>
30. Correct removal of drains	<input type="radio"/>
31. Correct removal of a central venous catheter	<input type="radio"/>
32. Correct performance of perioperative thrombosis prophylaxis	<input type="radio"/>
33. Positioning a permanent peripheral venous cannula	<input type="radio"/>
34. Performing a sterile dressing change and wound cleaning	<input type="radio"/>
35. Positioning a urinary catheter	<input type="radio"/>
36. Positioning a gastric tube	<input type="radio"/>
Therapeutic measures	
37. Caring for a wound in an out-patient setting or in the operating room	<input type="radio"/>
38. Performance of measures for secondary wound healing (e.g. VAC system)	<input type="radio"/>
39. Treatment of superficial wound healing problems	<input type="radio"/>
40. Treatment of deep wound healing problems	<input type="radio"/>
41. Treatment of post-operative bleeding	<input type="radio"/>
42. Participation in the treatment of suspected deep vein thrombosis / pulmonary embolism	<input type="radio"/>
43. Prescribing measures in treatment of pain, palliative and end-of-life care	<input type="radio"/>
44. Suture or clips after an operation	<input type="radio"/>
Communication with patient/team	
45. Communicating with severely ill patients	<input type="radio"/>
46. Elaborating a clinical question and searching for its solution in the literature	<input type="radio"/>
47. Notification of examination using instruments or of a specialist consultation with detailed explanation	<input type="radio"/>
48. Giving information to a patient regarding a planned surgical procedure / endoscopy / intervention or for an anaesthetic procedure and obtaining consent	<input type="radio"/>

Competence

Objectives completed

49. Summarizing the main points of diagnoses, active problems and management plans of a patient

☐

50. Clarifying with nursing staff monitoring measures and calling criteria concerning patients

☐

Documentation

51. Recording findings in patient file

☐

52. Filling in prescription forms

☐

53. Writing a detailed referral for an examination (using instruments) (e.g. CT)

☐

54. Writing a discharge letter

☐

55. Writing a daily report of distinct medical parameters on the present status and progress of a patient

☐

56. Filling in a death certificate and/or requesting a post-mortem (simulated situation)

☐

57. Diagnostic coding

☐

58. Requesting information in hospital information system

☐
