

Learning objectives – mandatory

The fulfilled and assessed learning objectives must be marked by the student with an x.

The assessment can be performed by the mentor in three ways: direct observation of the student during performance of a clinical activity (see page ii), CPY task (see page P4-P6), Mini-CEX/DOPS (see page v-vi). At the end of completion of the CPY tertial in the respective department, fulfilment of the learning objectives must be signed off by the mentor.

Competence	Objectives completed
Taking a medical history	
1. Taking a medical history	☐
2. Assessing clinical information necessary for reporting; obtaining further data if needed	☐
3. Identifying contraindications to imaging	☐
Imaging Techniques	
4. Reviewing the indication for radiologic imaging	☐
5. Administering medications during exam preparation	☐
6. Recognizing and interpreting pathological findings	☐
7. Summarizing main points for diagnosis and differential diagnosis	☐
8. Performing basic ultrasound of upper abdomen, kidneys, thyroid	☐
9. Being present during imaging procedures	☐
Performance of manual skills	
10. Inserting a peripheral IV cannula	☐
11. Administering IV injections	☐
12. Handling a central venous catheter under supervision	☐
13. Checking contrast agent administration for drug interactions	☐
14. Administering contrast agents	☐
15. Verifying the correctness of imaging referrals	☐

Competence

Objectives completed

Communication with patient/team

- | | |
|---|-----------------------|
| 16. Explaining exams for informed consent under supervision | ☐ |
| 17. Informing patients about risks and complications of radiological exams | ☐ |
| 18. Communicating ethically and legally with patients and relatives; ensuring understanding | ☐ |
| 19. Communicating with critically ill patients | ☐ |
| 20. Communicating with geriatric patients | ☐ |
| 21. Summarizing diagnostic findings and current problems | ☐ |
| 22. Discussing radiological findings with referring physicians | ☐ |

Documentation

- | | |
|---|-----------------------|
| 23. Applying internal, national, and international guidelines and protocols | ☐ |
| 24. Retrieving patient-specific data from hospital systems | ☐ |
| 25. Drafting basic reports of chest X-rays, ultrasound, and CT scans | ☐ |

Verified by mentor
