## James (Jay) Bradner, M.D.

President of the Novartis Institutes  
for BioMedical Research (NIBR), USA

---

James (Jay) Bradner, M.D., is President of the Novartis Institutes for BioMedical Research (NIBR) and a member of the Executive Committee of Novartis.

Prior to joining Novartis in 2016, Jay Bradner was on the faculty of Harvard Medical School in the Department of Medical Oncology at the Dana-Farber Cancer Institute in the United States where he has been affiliated Staff Physician since 2005 to 2016. He was also associate director of the Center for the Science of Therapeutics at the Broad Institute of MIT and Harvard. Jay

Bradner is a co-founder of six biotechnology companies and has co-authored more than 180 scientific publications and 30 US patent applications.

Jay Bradner is a graduate of Harvard University and the University of Chicago Medical School in the US. He completed his residency in medicine at Brigham and Women's Hospital and his fellowship in medical oncology and hematology at the Dana-Farber Cancer Institute. He has been honored with many awards including the Damon Runyon-Rachleff Innovation Award, the Smith Family Award for Excellence in Biomedical Research, the Dunkin' Donuts Rising Star Award as the Brigham & Women's Hospital Distinguished Excellence in Teaching Award, the American Society of Hematology Scholar Award, and the Alpha Omega Alpha as well as the Distinguished Service Award of the University of Chicago, Pritzker School of Medicine. Jay Bradner is elected member of the American Society of Hematology, the American Chemical Society, and the American Association of Cancer Research and, since 2011, of the American Society for Clinical Investigation.
