

CONSENSUS CONTROVERSIES COMPROMISE

IN CARDIOVASCULAR MEDICINE

**1st International
Interdisciplinary Meeting of
the Center of Cardiovascular
Medicine (CCVM)**

January 24 –26, 2019
Vienna Austria

Welcome to Vienna!

Dear Colleagues!

In the past Vienna has hosted meetings on the exciting topic of Controversies in Myocardial Revascularization. We would like to revive this meeting format and invite you to Vienna in January 2019 for the initiation of the novel **C3 Meeting**.

As The Heart-Team continues to evolve, decisions become even more challenging with more treatment options available. Often guidelines do not provide clear strategies for patients or are not conclusive for long term benefit. Furthermore, interdisciplinary activity and clinical as well as technical experience are of crucial importance to optimize patient outcomes. **The Center of Cardiovascular Medicine (CCVM)** at Medical University of Vienna / AKH Vienna offers, under the umbrella of the Heart-Team, a novel meeting format focusing on:

Consensus – Controversy – Compromise – C3

Pro-Con Discussions, State-of-the-Art Lectures and transmission of **Live-Procedures** will be the environment to **discuss patient specific options** by individualized decisions, **challenge guidelines** and **unveil real unmet medical needs**.

We hereby invite you to join our meeting, bringing your expertise and discussing burning questions regarding new therapies and established treatment algorithms. Catheter-based therapies will be performed **LIVE in the Hybrid-OR at AKH-Vienna**. Furthermore, novel, complex or minimally-invasive surgical procedures will be performed **LIVE** and transmitted to the appealing congress venue **Hotel Marriott** Vienna.

On Saturday evening you will have the unique opportunity to join us at the annual Physician gala in the Vienna Hofburg. This is a social highlight in the Viennese ball season and will leave you with the most memorable experience!

Join us in January 2019 at the **Primary C3 Meeting** in Vienna!
