at the event. These may be used for the purpose of documenting or
reporting the event and published in print and online media, on various
social media platforms and on MedUni Vienna's website.

Philipp Riss

Christian Scheuba

Dear colleagues,

minimally invasive thyroid surgery is becoming more and more popular. However, even for dedicated thyroid surgeons or experienced laparoscopic surgeons, proper training is necessary to learn this new method.

We are very happy to present the first Viennese cadaver course on transoral endoscopic thyroidectomy vestibular approach (TOETVA). This one-day course will give you an advanced training in this promising “scarless procedure”. After two hours of lectures, the participants will operate under supervision of European experts in this field using the latest surgical instruments.

Welcome to Vienna!

Philipp Riss, Christian Scheuba
Department of Surgery, Division of General Surgery
MedUni Vienna/Vienna General Hospital

Programme

8.00 – 10.00 am

Welcome

Philipp Riss, Christian Scheuba
MedUni Vienna/Vienna General Hospital, Austria

Implementation of TOETVA – recommended approach

Philipp Riss
MedUni Vienna/Vienna General Hospital, Austria

Surgical steps, tips and tricks

Günther Klein, Linda Michlmayr
Landeskrankenhaus Wr. Neustadt, Austria

Specimen retrieval and alternative access

Stefan Schopf
Krankenhaus Agatharied, Germany

Complications and management

Elias Karakas
Krankenhaus Maria-Hilf, Krefeld, Germany

TOETVA and intraoperative neuromonitoring

Christian Scheuba
MedUni Vienna/Vienna General Hospital, Austria

Discussion

10.00 – 10.30 am

Coffee break

10.30 am – 6.00 pm

Hands-on cadaver course
