## EWRR meeting Study Group Cell and Gene Therapy

**41<sup>st</sup> EUROPEAN WORKSHOP FOR RHEUMATOLOGY RESEARCH**

**Thursday 5<sup>th</sup> May, 13:30**

**Room Orient Express – Conference Level (1<sup>st</sup> floor)**

### A focus on the project SEN-OA: **Targeting senescent cells in osteoarthritis: an innovative therapeutic approach**

**Chairs:** Farida DJOUAD and **Christian JORGENSEN**, INSERM U1183-IRMB Montpellier

- **13:30 Dr Danièle Noel** (INSERM U1183, FRANCE)  
SEN-OA introduction
- **13:40 WP2-Claire Vinatier-Xavier Houard**  
Title: Senescence markers in murine and human OA: histological analyses and cellular models OA
- **14:00 WP3- Farida Djouad**  
Title: Impact of senescence on caudal fin regeneration in zebrafish
- **14:20 WP3-Beatriz Carames**  
Title: Case Studies on Emerging Targets in Joint Aging and OA
- **14:40 WP3-Danièle Noël**  
Title: Therapeutic function of senescence-induced MSC derived extracellular vesicles
- **15:00 WP4-Beatriz Carames**  
Title: Targeting Senescence to Identify Novel Therapeutics for OA
- **15:20- end of the Study group**
- **15:30-15:45 Round table with the SAB** (for SEN-OA consortium members only)
