

How to enter authors and their affiliations

Thank you very much for your interest in the YSA PhD Symposium and for submitting an abstract!

To ensure that the affiliations of all authors can be assigned correctly, we would kindly like to ask you to enter them into the form using numbers, as written in parentheses:

Name of first/presenting author with number according to affiliation (e.g.

Smith, A. (1)) *

Names of coauthors with number according to affiliation (e.g. Taylor, R. (2),
Miller, S. (3), Sinclair, B. (1), Bauer, X. (4), ...)

Affiliations of all authors with numbers 1, 2, 3, ... (e.g. (1) University of New
York, (2) University of Vienna, (3) University of Adelaide, (4) University of
London, ...) *

If you enter the authors and affiliations as exemplified above, they would be assigned as follows:

Smith, A. (1), Taylor, R. (2), Miller, S. (3), Sinclair, B (1), Bauer, X. (4)

(1) University of New York

(2) University of Vienna

(3) University of Adelaide

(4) University of London

The above affiliations only serve as examples. It is desirable to also specify the exact institute or division and the location of the university (e.g. Department of Dermatology, Medical University of Vienna, Vienna, Austria).

Thank you very much for submitting an abstract and please do not hesitate to contact us if you have any questions: ysa@meduniwien.ac.at
