MEDICAL UNIVERSITY OF VIENNA

# MIC Festival – Future Potentials of Medical Imaging

Thursday, 15<sup>th</sup> June 2023, 9 am – 3 pm

Van Swieten Saal, Medical University of Vienna  
Van-Swieten-Gasse 1a, 1090 Vienna

[www.meduniwien.ac.at/mic-festival-2023](http://www.meduniwien.ac.at/mic-festival-2023)

## Future Potentials of Medical Imaging

The 5<sup>th</sup> MIC Festival will focus on recent advances and future potentials as well as innovative and novel applications of medical imaging on the pulse of the time. The event will have an exciting keynote lecture, wonderful scientific presentations and poster sessions, showcasing the latest advances and achievements in medical imaging research.

### Abstract Submission

20<sup>th</sup> March – 17<sup>th</sup> April 2023

### Programme highlights

- Keynote lecture by Patrick Eppenberger (Paleopathology and Mummy Studies Group, Institute of Evolutionary Medicine (IEM), University of Zurich)
- Session: “Outside the Box Imaging”
- Session: “Emerging Technologies in Medical Imaging”
- “Multi-Cluster Round Table”
- Thematic poster tours
- Awards for best contributions

### Scientific organisational team

Cécile Philippe (Preclinical Imaging) - Coordination  
Kareem Elsayad (Microscopy, and Advanced Optical Imaging)

Roxane Licandro (Image Computing, Analysis and Visualisation)

Ivo Rausch (Quantitative Clinical Imaging)

Andreas Renner (Image Guided Therapies and Theranostics)

### Eventmanagement

Ute Weber-Woisetschläger
