

Science for Resilience

Learnings from the Pandemic

COVID-19
**FUTURE
OPERATIONS**

Future Operations
Platform Conference

23.5. – 24.5.2022 **Vienna BioCenter**
IMP Lecture Hall

Campus-Vienna-Biocenter 1
1030 Vienna

Conference Program Monday, 23.5.2022

Thematic Session 1
How can the right data be made available to the right people at the right time – in order to facilitate smart and timely decision making?

Thematic Session 2
How to build resilient health systems?

Thematic Session 3
What scenarios can we expect for the fall of 2022 and in the coming years, and how shall we prepare for it?

Thematic Session 4
How does SARS-CoV-2 evolve and what are implications for treatment and immunity?

Panel Discussion 1
Vulnerable populations (in German!)

Conference Program Tuesday, 24.5.2022

Thematic Session 5
What are the best approaches to increase trust, to improve communication, and to reduce polarization?

Thematic Session 6
How do science and public policy interact in times of crisis?

Press Conference

Thematic Session 7
How do we make daycare and schools “safe” in spite of the pandemic?

Panel Discussion 2
Lessons learned (in German!)
