

At the Medical University of Vienna a position as

## Assistant Professor in Molecular Biology

according to § 99 (5) University Law 2002 (UG) is announced.

The Medical University of Vienna is one of Europe's premiere institutions for biomedical and clinical research. The Max Perutz Labs are looking for a tenure track junior group leader with outstanding potential to establish an independent and internationally competitive research group in the field of Molecular Biology. The mission of the Max Perutz Labs (<https://maxperutzlabs.ac.at>) is to analyze and reconstitute complex biological processes from atomic to tissue and organismal scales.

A successful candidate would ask fundamental, mechanistic questions related to the structure, function and/or dynamics of molecular complexes, organelles, and cells and/or multicellular processes, and will bring ambition and creativity to tackle biological questions that have the potential to impact human health. Candidates who also demonstrate a commitment to teaching and mentoring a diverse student body will be of particular interest.

### Your profile:

- Completed scientific or medical education with PhD or equivalent degree.
- International recognition in the respective research area.
- Successful and continuous acquisition of peer-reviewed third-party funding.
- Educational and didactic qualifications including supervision of Masters and PhD students.
- Diversity and gender competence.
- International working experience

### We offer:

The successful candidate will be offered an Assistant Professor position for a maximum duration of six years. Should the candidate meet the conditions stipulated in the qualification agreement, she/he will be promoted to tenured Associate Professor. Conditions and criteria are defined in the official career track guidelines of the university (Career scheme for the scientific University staff according to §99 Abs. 5 University Act 2002 "New qualification agreement" - <https://www.meduniwien.ac.at/web/karriere/karriereentwicklung-an-der-meduni-wien/>).

The gross salary for this position is based on the collective agreement for university employees (§49, A2) and may be adjusted depending on previous work experience.

The Max Perutz Labs are located at the Vienna BioCenter (VBC), a leading center for life science research in Europe. The campus is home to 1400 scientists from more than 40 nations with English as the working language. In addition to excellent core facilities (<https://www.viennabiocenter.org/vbcf/>) and a competitive international PhD program (<https://training.vbc.ac.at/phd-program/>), the campus offers on-site childcare and the city of Vienna has regularly topped international indices for its quality of life.

The MedUni Vienna aims to increase the proportion of women in leadership positions and therefore encourages qualified female candidates to apply. In case of equivalent qualifications, preference will be given to female applicants. The Vienna Biocenter campus hosts an international kindergarten. The working language of the Institute is English.

**Application documents:**

Please submit your application in English to [faculty-recruiting5@meduniwien.ac.at](mailto:faculty-recruiting5@meduniwien.ac.at) by January 16<sup>th</sup>, 2023 at the latest. All files should be merged into a single PDF.

Applications should include:

- curriculum vitae
- list of publications
- list of five key publications with the possibility of electronic downloading
- summary of research and teaching activities
- a concept of future research plans
- three letters of reference
- contact addresses of three referees

Applicants are also requested to complete the form (FactSheet) posted online and to attach it to their application ([https://www.meduniwien.ac.at/Factsheet\\_Professuren\\_99\\_5\\_UG](https://www.meduniwien.ac.at/Factsheet_Professuren_99_5_UG)).

Information in accordance with the General Data Protection Regulation can be found at [https://www.meduniwien.ac.at/Datenschutz\\_Professuren/](https://www.meduniwien.ac.at/Datenschutz_Professuren/)

**About us**

The Medical University of Vienna is one of the most established medical training and research institutions in Europe. With 8,000 students, it is today the largest medical training facility in the German-speaking area. Together, 30 university departments and two clinical institutes as well as 13 basic science centres and numerous highly specialized laboratories make the Medical University of Vienna one of the most important cutting-edge research institutions in biomedicine. The Max Perutz Labs are a joint venture of the University of Vienna and the Medical University of Vienna [www.meduniwien.ac.at](http://www.meduniwien.ac.at).
