

Propedeutics Molecular and Cell Biology for Medics – WS2019
Anna Spiegel Building – Seminar Room Level 3
7.10. to 24.10.2019; 17:00

Day	Lecturer	Topic of lecture/course
7.10.2019	Roland Foisner	Principles in cell biology – an introduction
8.10.2019	Maria Sibilica	Stem cells – challenge in medicine
9.10.2019	Wilfried Ellmeier	Transgenic model systems
10.10.2019	Christian Seiser	Molecular genetics – an introduction
--		
14.10.2019	Christian Seiser	Gene regulation
15.10.2019	Martin Bilban	High-throughput genomic technology: Design, principles and optimal use
16.10.2019	Giulio Superti-Furga	The protein world
17.10.2019	Michael Jantsch	RNA Biology
--		
21.10.2019	Ruth Herbst	Animal models in biomedical research
22.10.2019	Johannes Schmid	Cell compartments
23.10.2019	Egon Ogris	Cell cycle – an introduction
24.10.2019	Egon Ogris	Signal transduction – an overview
